PROFESSIONAL SUMMARY

Dynamic Software Developer and Graphic Designer bridging the gap between robust technical engineering and intuitive visual design. Currently pursuing a BS in Computer Science with hands-on expertise in full-stack web development, data processing, and brand identity. Proven track record of delivering high-quality freelance design projects and comprehensive software solutions. Adept at leveraging modern technologies to optimize user experiences and streamline operational workflows.

TECHNICAL SKILLS

Development: JavaScript, TypeScript, Python, Java, C++, PHP, HTML5, CSS3

Frameworks & Databases: React.js, Next.js, Node.js, Firebase, MS SQL Server

Tools & Architecture: Visual Studio Code, Git, GitHub, Command Line Interface (CLI)

Design & UI/UX: Adobe Photoshop (Certified Expert), Adobe Illustrator, Adobe InDesign, Typography, Brand Identity

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer & Developer

Feb 2022 – Present

Self-Employed | Faisalabad, Pakistan

- Spearheaded the design and delivery of custom branding kits, promotional posters, and visual assets for diverse clients, directly improving their brand consistency and engagement.
- Developed and deployed interactive web forms and custom content management systems utilizing HTML, CSS, and PHP to meet specific client requirements.
- Engineered local data processing pipelines by writing and executing optimized Python scripts within Visual Studio Code, successfully automating the segmentation of large datasets across multiple Excel workbooks.
- Utilized Adobe Creative Suite to execute advanced photo compositing and vector graphic creation, ensuring pixel-perfect deliverables for both print and digital mediums.

TECHNICAL PROJECTS

LibraryPro | Full-Stack Web Application

Stack: Next.js, React, TypeScript, Firebase

- Architected and developed a production-ready Library Management Web Application designed to streamline cataloging and user access protocols.
- Integrated secure user authentication and real-time database synchronization via Firebase, ensuring data integrity and a seamless user experience.
- Designed a responsive, mobile-first frontend interface, significantly optimizing cross-device accessibility and application performance.

EDUCATION

BS Computer Science

Government College University Faisalabad | Faisalabad, Pakistan

Aug 2023 – Aug 2027 (Expected)
